

Hytrans Fire System

MOBILE SUPER WATER SUPPLY SYSTEM

Mobile super water supply system
for fire brigades, civil defence,
the petro-chemical and
mining industries

At large scale fires, disasters or flooding
the problem always is the water supply,
access, time & distance.

- Super capacity
- Large distance
- Easy water access
- Fast deployment

Water supply over thousands of metres, operational in only 15 minutes.

Transport skid for three HydroSub 60 units with three 200 metre hose boxes typically used as filling stations for fire trucks and for flooding/de-watering.

Easy access to open water

Large capacity, mobile hydrant system

High speed hose laying over large distances

HYTRANS FIRE SYSTEM

Portable submersible floating pump, power packs, large diameter flexible hose and high speed hose laying and recovery.

Applications

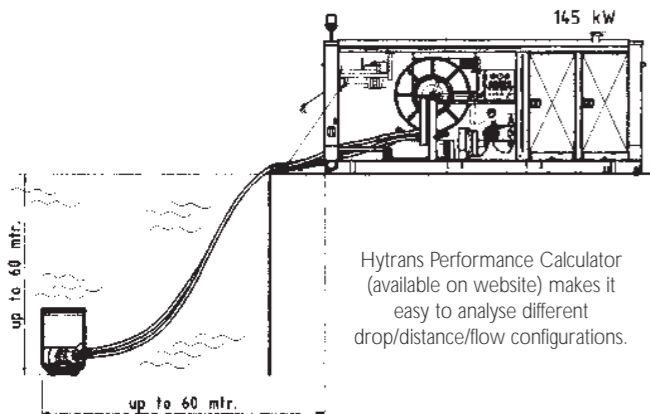

- Refinery/tank farm fires
- Major disaster fires
- Filling station for fire trucks
- Flooding/de-watering of mines
- Bulk transport of liquid (including drinking water)

DIESEL POWER PACKS power the HYDRAULIC SUBMERSIBLE FLOATING PUMPS.

LARGE DIAMETER FLEXIBLE HOSE gives you the ability to quickly lay out a complete above ground network in minutes. Hoses up to 300mm.

HIGH SPEED HOSE LAYING at up to 40 km per hour.

Pump unit

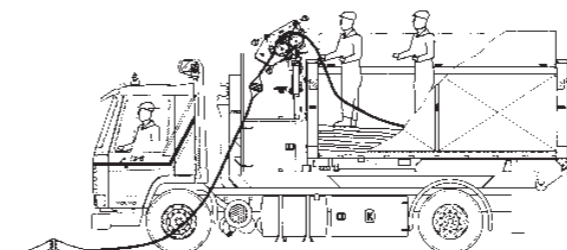

Portable submersible floating pump

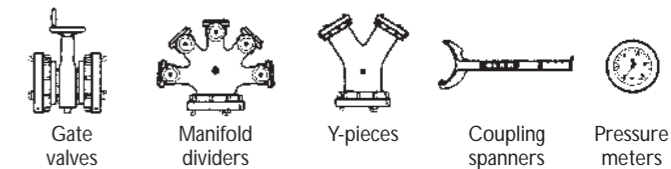

HYDRAULIC SUBMERSIBLE PUMP allows quick access to any open water source at distances up to 60 metres, vertically or horizontally. The pump can use salt water, chemical polluted water, mud, dirt and can operate from shallow water with no risk of pump failure due to cavitation.

Hose recovery unit

A HOSE RECOVERY UNIT enables recovery of 1000 metres of large diameter hose in about 30 minutes.

Hydrant system components

THE PORTABLE WATER SUPPLY EQUIPMENT range provides the ability to lay a complete above ground network, pumping water to the fire fighting equipment in minutes.

Unit	Basic Version	Hi - Flow Version
HydroSub 60	1500 l/m - 10 bar	4000 l/m - 2,5 bar
HydroSub 150	3500 l/m - 11 bar	8000 l/m - 2,1 bar
HydroSub 450	11000 l/m - 12 bar	
HydroSub 900	22000 l/m - 12 bar	
AutoBoost	22000 l/m - 12 bar
